Defender Headliner Kits

DA3694

DA3694 Defender 90 - 1987 - 2016 - with Alpine lights

DA3745 Defender 110 - 1987 - 2016 - with Alpine lights
Light Grey

Say Goodbye to Sagging Cloth Headliner:

Our kits are manufactured to replace sagging or deteriorating cloth headliners, giving your Defender's interior a much-needed facelift.

Rigid Composite Material for Durability:

Constructed from a robust composite material with a textured finish, these kits offer enhanced durability and longevity, outperforming traditional cloth headliners.

Easy to Clean Surface: The wipe-clean feature of our headlining kits makes maintaining a clean and hygienic interior effortless.

Simple Installation with Existing Clips: Designed for convenience, these kits can be easily fitted using the existing clips in your vehicle, making the installation process quick and hassle-free.

Moulded for a Perfect Fit: Each headlining kit is moulded to ensure a precise fit, adhering to the contours of your Defender for a professional and smart appearance.

Lightweight Construction: Despite their rigidity and durability, our headlining kits are surprisingly lightweight, ensuring they don't add unnecessary weight to your vehicle.

Transfer Case Sump Covers

DA9016

Transfer Case Sump Cover

Fits all Land Rover Series 1, 2, 2A and 3 models (except V8)

Billet transfer case sump oil coolers are designed to replace the flimsy sump covers supplied as standard equipment. This cover is stronger than the originals and has cooling fins to keep the oil in your transfer case cool in harsh conditions. This Series model is supplied with a new gasket and replacement fastening bolt to replace the brittle standard studs. Being solid aluminium, the cover completely eliminates leaks caused by differential expansion. If your vehicle is pre-1980 you can use your existing drain plug and washer. Owners of later Series vehicles with metric fasteners should purchase a plug (Land Rover part 235592) to fit the threads in this casting. As the cover expands at the same rate as the aluminium transfer case the stubborn oil leaks associated with the original steel cover are completely eliminated.

Premium Loadspace Mat

DA3660

Premium Loadspace Mat

Defender 90 - 2020 onwards

Britpart's unique premium loadspace mats are manufactured from a high-specification material. Designed to be durable with an anti-slip, matt look finish. These quality mats will look after your Land Rover's loadspace for years to come.

Tubeless Steel Wheel

Morris Transmission Oils

LR048849
Lodexol MTFE 75W
 1 litre bottle
 Lodexol MTFE 75W will provide potential fuel saving performance due to its low viscosity, which minimises friction in the gearbox. The product has superior cold start fluidity, ensuring fast circulation around gear systems and providing additional energy savings. At high operating temperatures, the product will continue to provide an outstanding level of component protection under a variety of operating conditions. Powerful EP chemistry not only protects gear and synchro elements, but ensures that all components, including bearings, are rust and corrosion free.

LR003137 / STC4861

Lodexol FS 75W-90
 1 litre bottle
 Lodexol FS 75W-90 is a synthetic high performance gear oil that has excellent extreme pressure (EP) performance and load carrying ability, as well as providing rust and corrosion protection to transmission components. This grade not only has outstanding low temperature fluidity, eliminating cold start gear selection problems (cold baulking), but can also cope with highly stressed gearboxes running at high temperatures. The extremely strong synthetic base fluid maintains lubricating film integrity under the toughest shock load conditions demonstrating superior performance over conventional mineral oils.

Safety Devices

DA3569

Spare Wheel Cradle

Defender 90 & 90 Hard Top - 2020 onwards
 Defender 110 & 110 Hard Top - 2020 onwards
 Defender 130 - 2020 onwards

Designed to work with the existing spare wheel carrier as a cradle to rest the wheel on whilst attaching with bolts. Uses existing mounts in the rear door with no modifications required.

DA3570

Spare Wheel Cradle & Off Road/Trail Jack Mount

Defender 90 & 90 Hard Top - 2020 onwards
 Defender 110 & 110 Hard Top - 2020 onwards
 Defender 130 - 2020 onwards

Designed to work with the existing spare wheel carrier as a cradle to rest the wheel on whilst attaching with bolts. Uses existing mounts in the rear door with no modifications required. Also provides the provision to mount an off-road/trail jack in a vertical orientation.

DA3567

Side Steps

Defender 110 & 110 Hard Top - 2020 onwards
 Defender 130 - 2020 onwards

Side steps and toe rail kit with non-slip tape and stainless-steel infill plates. Designed to mount on existing mounts within the sill. The plastic sill covers will require slight modification to allow access to the mounting points. Supplied with an adapter to allow the OEM jack to be used.
